“I like it because it’s not a nursing home and it belongs just to me.”

When Mr. J was 52 years old, he suffered a stroke and was admitted to a nursing home. As his condition improved, Mr. J decided he was ready to move back into the community. One of our Nursing Home Transition Coordinators worked with him to help him find housing. Although the process of securing housing took some time, persistence paid off.

Today, Mr. J lives in his own apartment and receives supportive services to help him with his daily living activities.

Thank you for golfing and making a difference in so many lives!

Golf proceeds help others like Mr. J live independently in the community.
