

Redefining complex primary care

EXPERT CARE, WHEREVER YOU ARE

Feltin Community Care is a non-profit collaborative **primary care practice** that provides health care in the home and promotes independence for the disabled, elder, and mental illness communities. We recognize the importance of high quality, individualized care by providing a safe, respectful, and dignified care community that honors patient choice and empowerment.

In partnership with **NewVision HealthCare Group**, we are a specialty primary medical practice staffed by experts in disability and chronic care who promote a person-centered model of care.

Feltin Community Care is **not** an insurance company or managed care health plan, and bills Medicare directly for your services.

THE FELTIN DIFFERENCE

| | Traditional primary care practice | Feltin primary care practice |
|--|-----------------------------------|------------------------------|
| Care delivered by experts in chronic and disability care | | ✓ |
| Home visits for routine & urgent medical issues and post hospital care | | ✓ |
| 24-hour 7 days-per-week on-call services | ✓ | ✓ |
| Integrated care coordination ; troubleshooting equipment and supplies, PCA services | | ✓ |
| Advocacy navigating a complex health system | | ✓ |

DO I QUALIFY FOR FELTIN?

- Are you 18 years old or older?
- Do you need supports to live independently in the community (such as PCA services or equipment?)
- Do you have a condition that impairs your mobility or results in difficulty leaving the home?
- Do you live in Essex, Middlesex, Norfolk, or Suffolk County?
- Are you on Medicare, Parts A & B?

If you answer YES to these questions and are not in a managed care program, such as One Care, Senior Care Options (SCO), PACE or a Medicare Advantage Plan, Feltin Community Care may be a good fit for you.
